

Waste Management Policy

Purpose: Zinsolar Engineering Sdn Bhd is committed to responsible waste management practices to reduce environmental impacts and support a circular economy.

Scope: This policy applies to all employees, contractors, and operations of Zinsolar Engineering, including project sites and offices.

Policy Statement: We are committed to:

1. **Waste Minimization:** Reduce waste generation through efficient design, planning, and resource utilization.
2. **Waste Segregation and Recycling:** Implement waste segregation practices to maximize recycling and minimize landfill disposal.
3. **Proper Disposal:** Ensure all waste, including hazardous materials, is disposed of responsibly and in compliance with local regulations.
4. **Use of Sustainable Materials:** Promote the use of recyclable, biodegradable, and environmentally friendly materials in our projects.
5. **Education and Training:** Provide regular training to employees on waste management practices and responsibilities.
6. **Collaboration:** Partner with certified waste management vendors and recyclers to ensure proper handling and disposal.
7. **Monitoring and Reporting:** Regularly monitor waste generation and disposal practices, and report on performance to identify areas for improvement.

Responsibilities:

- Management: Oversee the implementation of waste management strategies.
- Employees: Follow waste management procedures and actively participate in waste reduction efforts.
- Contractors and Suppliers: Comply with Zinsolar's waste management standards and guidelines.

MUHAMMAD FIRDAUS BIN ISMAWI
